Normal Family Processes

FOURTH EDITION

Growing Diversity and Complexity

Edited by **Froma Walsh, PhD, MSW**

“The book provides an excellent springboard from which to foster student/trainee curiosity and further learning. I have already used insights from this book for work with my own clients.”

—*Clinical Social Work Journal*

“This volume takes another step forward on the trail that Walsh has blazed in the field of family therapy. It captures the breadth and depth of family life like no other book. This is a great text for graduate courses and a joy to read for experienced professionals.”

—**William M. Pinsof, PhD,**

President, The Family Institute at Northwestern University

Widely adopted, this valued course text and practitioner guide has expanded the understanding of family normality and healthy functioning in our increasingly diverse society. The editor and contributors are at the forefront of research and clinical training. They describe the challenges facing contemporary families and ways in which clinicians can promote resilience. With consideration of sociocultural and developmental influences, chapters identify key family processes that nurture and sustain strong bonds in couples; dual-earner, divorced, single-parent, remarried, and kinship care families; gay and lesbian families; culturally diverse families; and those coping with adversity, such as trauma, poverty, and chronic illness.

About the Editor

Froma Walsh, PhD, MSW, is the Mose and Sylvia Firestone Professor Emerita in the School of Social Service Administration and the Department of Psychiatry at the Pritzker School of

Medicine, University of Chicago. She is also Co-Founder and Co-Director of the University-affiliated Chicago Center for Family Health. Dr. Walsh is a past president of the American Family Therapy Academy and past editor of the *Journal of Marital and Family Therapy*. She has received many honors for her distinguished contributions and leadership in the field of family therapy, including awards from the Division of Family Psychology of the American Psychological Association, the American Family Therapy Academy, the American Association for Marriage and Family Therapy, the American Orthopsychiatric Association, and the Society for Pastoral Care Research. Widely published, she is a frequent speaker and international consultant on resilience-oriented professional training, practice, and research.
